## Misasin Trail

Hike route: Misasin Trail

## Hike Details

Trailhead: Misasin Trailhead  
Hike Length: 2.4 km  
Route Type: Loop  
Difficulty: Rated 36: Easy

## Route Colour key

- Brown: Road - easy going and the route is always clear.
- Green: Usually a well-defined trail, occasionally overgrown.
- Blue: Trail often degraded or overgrown, therefore not well-defined at times.
- Black: No trail, so navigation is more difficult, yet sometimes a game trail to follow.

## Description

The trail name "Misasin" was coined by local geocachers. In Plains Cree, it means "rather large, but not overly large." Consider this "out-and-back" style hike an exploratory trek rather than a leisurely stroll along a well-defined trail. There is only one long "leg" to this trail plan because the trail as marked is usually quite easy to follow; what lies beyond, not so much. The trail is seldom travelled and can get quite overgrown, especially during the summer months.

### Leg 1

Misasin Trail Trailhead → Trail Intersection  
Distance: 1.2 km

#### Description

- Start out from the "Misasin Trail Trailhead" along the single-track trail.
- Use the "Turn northwest" waypoint to guide you.
- Along the next stretch, the trail is clear, but becomes a walk through a gauntlet of scratchy bushes. Long sleeves and long pants are essential here.
- Eventually the gauntlet ends and the trail widens.
- At the "Trail Intersection" waypoint this suggested hike ends. Past this point the trails become far fainter.
- Continue on at your own risk, using the "Trail Intersection" waypoint as a reference point in case you get disoriented.
- Return along the same trail, back to the "Misasin Trail Trailhead".
